

SharePa by IDEMIA

Your Digital Assistant for IDEMIA's Biometric Devices installation and setup

In Himalaya, the Sherpa is a skilled mountainer who is often employed to help visiting climbers. Deploying IDEMIA's biometric devices is fortunately much simpler than climbing the Everest ! Nevertheless, our SharePa mobile app will be your Personal Assistant to **guide you efficiently** in this process.

KEY FUNCTIONALITIES

- Product unboxing
- Wire connection
- IP configuration
- Software installation
- Device configuration with MorphoManager
- In-app step by step guidance
