Important: using firmware 4.5.2 or higher for the **Sigma Lite Plus** you cannot downgrade to previous version of Firmware revision.

Pre-requisite: firmware 4.3.2 or 4.5.1 is required before going to 4.5.2 or higher

Side note: Readers with Firmware 4X can move up and down the firmware ladder in the 4x range (cannot downgrade to 3X or 2X) but once at the 4.5.2 only higher firmware can only be loaded.
